1. We recently stayed in this newly opened hotel and **loved the friendly staff**, cool interior and unstuffy approach. Best bits were the funky lobby, the pool table, the view, the location, the delicious and innovative food! **The staff were amazing and managed to be friendly and exceptionally professional at the same time.**

2. “Excellence Beyond Words”

- This cool and uber-stylish hotel is a gem in Hong Kong. Forget the hustle and bustle of fast paced Hong Kong city and head to Ovolo Southside. Upon arrival, we were greeted by friendly and hospitable service staff who are all ready to offer advice to any enquiries. The room size is decent by HK standard. Despite the size, it is packed with so many goodies that is not seen in any hotel I have visited.

3. “Great hotel, edgy location”

- I stayed here for a night while I was in Hong Kong for business - what a cool hotel. **The staff were great**, the room amazing with the floor to ceiling windows, comfy bed and I loved the roof top bar. I really appreciated that wi-fi, breakfast, mini bar, self laundry and more were all included in the rate!

Lots of very cool art galleries close by, I even went for a walk on the beach only moments from the hotel.
